

October 3-6, 2026

Czech Republic 📍 BRNO

# Brno flap course

DISSECTION COURSE · MINI-SYMPOSIUM · WORKSHOP ON PREOPERATIVE DIAGNOSTIC OF PERFORATOR FLAP

DAY 1 Saturday | October 3 | 2026

## Mini-Symposium

ON RECONSTRUCTIVE MICROSURGERY

📍 Lecture hall B11/114 | Masaryk University Campus

Keynote Lectures

Theoretical Insights for Practical Training

## Workshop

ON PREOPERATIVE DIAGNOSTIC OF PERFORATOR FLAP AND MICROVASCULAR ANASTOMOSIS

📍 The Simulation Centre & University Centre for Surgical Anatomy | Anatomy Lab 3

Demonstrations by experts and simultaneous training dissections by participants

DAY 2 - 4 Sunday-Tuesday | October 4-6 | 2026

## Hands-on Cadaver Dissections

📍 Anatomy Lab 1 & 2 | The University Centre for Surgical Anatomy Masaryk University

Theoretical introduction & demonstration of flap dissections by experts

Simultaneous training dissections by participants

SEE THE FULL LIST OF HANDS-ON CADAVER DISSECTIONS ON THE NEXT PAGE →

### 📅 SOCIAL PROGRAMME

#### Day 1

Course Opening  
Welcome Dinner

#### Day 3

Dinner with Faculty  
Quiz on Reconstructive Microsurgery

#### Day 4

Course Closing

✦ Quiz Award  
✦ Best Flap Dissection Award

# Hands-on Cadaver Dissections

## TRUNK

IMAP Flap  
AICAP Flap  
TDAP & LICAP Flaps  
Parascapular & Latissimus Dorsi & Serratus Anterior Flaps  
Scapula Bone Flap <sup>NEW</sup>

## UPPER LIMB & HAND

Posterior Interosseous Flap  
Radial Forearm Flap  
Proximal Radial Forearm Flap  
Dorsal Ulnar Artery Flap  
KITE Flap

## ABDOMEN & GROIN

SCIP Flap  
Groin LNT  
DIEP Flap  
SIEA Flap  
Iliac Crest Flap

## LOWER LIMB

Anterolateral Thigh Flap (also Super-Thin & Chimeric)  
PAP Flap  
Gracilis Flap (also segmental)  
TUG Flap  
SGAP & IGAP Flap  
Lumbar Perforator Flap  
Vascularized Fibula Flap  
Medial Femoral Condyle Flap  
Medial Plantar Flap  
Dorsalis Pedis Flap  
MSAP Flap  
Keystone Flap

## FACE & HEAD

Temporal Fasciocutaneous Flap  
Temporal Muscle Flap  
Submental Flap  
FAMM Flap

## FACIAL REANIMATION DONOR PROCEDURES

SMAS  
Facial Nerve (CN VII) Donor  
Masseteric Nerve Donor

✦ EXCLUSIVE — NEW FOR 2026

## The Skin-to-Skin Microsurgical Training Platform

A unique and innovative training platform designed to simulate the complete reconstructive journey — from flap harvest and transfer to microsurgical anastomosis and final tissue inset, providing an unparalleled end-to-end surgical experience not previously offered within the course.

DIEP breast reconstruction

SCIP flap for hand soft-tissue reconstruction

Free fibula flap for segmental tibial bone defect

Scapula bone flap for maxillary defects

Segmental gracilis flap for facial reanimation
